

# Copper Patch Cables

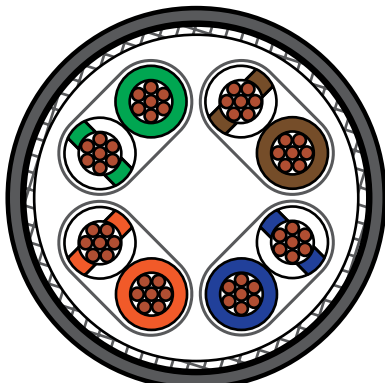

GigaTech Products supplies standard and custom copper patch cords for your network and server application needs. These cables offer superior data transmission with outstanding performance characteristics in data cable applications. We offer custom builds, lengths, and jacket colors to meet the needs of your network. Each product is subject to in depth qualification and testing to ensure that it will perform to the demands of rigorous technology environments. All items are manufactured using the highest quality components and covered by a Lifetime Warranty.
