

# Cisco Approved UCS Memory

## GigaTech Products supports a full line of **memory solutions** for the Cisco UCS Series servers

GigaTech Products is supporting a full line of memory solutions for the Cisco UCS Series servers. Beware of other 3rd party brands. The Cisco UCS Series will display an "Invalid FRU" error if you do not use the correct Cisco approved products. GigaTech Approved Cisco UCS memory will work seamlessly in your server while allowing you to lower your total cost of ownership. These solutions are tested to be 100% compatible with the Cisco UCS devices and backed with our Lifetime Warranty.
